

New Strong Profile on the Board of Hammel Furniture

Hammel Furniture prepares for the future with strong furniture talent on the board.

Torben Villadsen is the name of Hammel's most recent factor for growth. Among the things Torben can contribute are 25 years of experience in the furniture business, of which the last seven were as CEO for Actona Company A/S, which he resigned at the end of 2020.

- We are very proud and happy to be able to attract a talent like Torben Villadsen to the board of Hammel. We are on a journey of growth, where having good advisers and role models along with us is critical. Torben fits both of those, he knows a lot about creating success, and in that context he brings a number of significant competencies. We are looking forward to drawing on his extensive experience in areas like e-commerce and export, says CEO Jens-Ole Staghøj.

Torben Villadsen explains the backstory for accepting the invitation to become part of the board:

- Hammel Furniture is an exciting company that has developed significantly in recent years. I agree wholeheartedly with the management and owners of Hammel Furniture that the company has great potential for continued development. I am looking forward to making my own modest contribution to realizing their visions and plans for Hammel Furniture in the years to come. Torben Villadsen continues:

- Hammel Furniture is built on good Danish traditions for craftsmanship in combination with efficient production. This is a heritage I respect greatly, and which I look forward to being part of keeping and developing.

Torben Villadsen takes the place of Svend Hansen on the board, as Svend has decided to retire and enjoy his golden years.

- We would like to take this time to thank Svend for his many years of faithful service on the board of Hammel, and we wish him all good things in the future, says Jens-Ole Staghøj.

Hammel Furniture made it through the last year of Coronavirus by their perseverance and unity.

- We feel well-equipped for the future. This last year has been a strange mixture of crisis management, significant growth, shortages of raw materials, and an ongoing health crisis, but we are finally starting to see the light at the end of the Corona-tunnel. We have lots of exciting projects in the pipeline that we are looking forward to tackling and unveiling. We are looking to the future with great confidence, concludes CEO Jens-Ole Staghøj.
